

Military Family Relief Program

Suburban Water Systems is proud to support members of the armed services.

If you or a member of your family is on active duty in the military, you may qualify for a deferral of payments on your Suburban Water Systems bill for up to six months.

The Military Family Relief Program

protects military customers and their families from shutoff for non-payment for 180 days (six months) while they are on full-time active duty.

Suburban Water Systems' customers are still obligated to ultimately pay for water service provided during that time. However, they are eligible for payment deferral plans that give them up to a year after their active military duty to make up any past-due payments that have been previously deferred under this program.
